

# Pro Products - Neutra-7®

## Formerly Pro-Soda Ash

*Neutra-7* is a highly alkaline compound which neutralizes the acid found in some water systems. This helps to eliminate corrosion from piping, pressure tanks, water heaters, and fixtures, giving your system longer life. A *Neutra-7* solution injected into your water system will neutralize acid water and eliminate corrosion problems. *Neutra-7* can also be used to remove tannins from a tannin-type water softener, and may be used in a potable water system.

## Applications

Neutralizing Acid Water: The feed rate of *Neutra-7* depends on the acidity of water. Proper dosage is reached when the pH of the treated water is between 7.0 and 8.0. Follow procedure for injecting *Neutra-7* into your water system by the chemical feed pump manufacturer or supplier.

Cleaning Tannin Water Softeners: Mix 1 cup of *Neutra-7* with 1 qt. of water and pour into salt storage tank on weekly basis.

## Features and Benefits

- The most satisfactory method of correcting an acidity problem is to automatically feed a soda ash solution into the water. This solution may be fed into the water supply with a chemical feed pump. It chemically combines with the acid water to completely neutralize it.
- Tannins are harmless organics from water passing through peaty soil and decaying vegetation. *Neutra-7* will rid the mineral bed of tannins by “swelling” the beads which help the tannins fall off the beads.
- Also, *Neutra-7* increases the pH which will keep the tannins in a more soluble state and help the exchange process.

## Technical Information

*Neutra-7* is a white granular powder.

## Formulation

Sodium Carbonate CAS#497-19-8

## Storage and Handling

Store in a cool, dry area, away from acids and lime. When dissolving in water, add water slowly and cautiously while stirring. Solutions can get hot. Read relevant Material Safety Data Sheet before handling this product.

## Shipping Information

DOT classification: Non-hazardous.

Packaging meets all DOT requirements.

<u>Item No.</u>	<u>Unit Size</u>	<u>Case Quantity</u>
45136	4 lb.	6/case
45137	45 lb.	1 Drum
