

Hydrotech® Total Home Protection Water Conditioning Systems

The best water for your home and family.

Even clear, odorless water from a municipal water supply can bring unwanted contaminants like chlorine, lead and hardness minerals into your customer's homes.

Hydrotech's Total Home Protection systems remove unwanted impurities from water, leaving soft, clean, filtered water throughout the home.

TOTAL HOME PROTECTION

IAPMO R & T Certified
Against NSF/ANSI 42 & 44

QCRO4V-50 system certified by IAPMO R&T to NSF/ANSI 58 for the reduction of the following substances, as verified and substantiated by test data: Lead, Arsenic (V) (less than 300 ppb reduction), and PFOA/PFOS.

* The QCRO4V-50 is certified by IAPMO R&T to NSF/ANSI 58 for the reduction of Lead, PFOS/PFOA and other harmful contaminants.

**HT89-HTO systems are certified to IAPMO NSF 42.

***Water main breaks can allow bacteria and viruses into municipal water systems. Ultraviolet systems protect against this contamination.

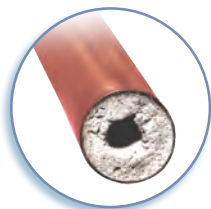

Hydrotech 89 HTO-150

Share the benefits of combining water softening and carbon filtration for Total Home Protection.

Benefits of Soft Water

- ⇒ Lower water heating costs by 30%*
- ⇒ Lower soap and detergent use by up to 50%*

- ⇒ Prevent costly scale build-up in pipes, faucets & showerheads
- ⇒ Avoid premature failure of water heaters & other water using appliances

- ⇒ Brighter, softer laundry
- ⇒ Sparkling dishes

- ⇒ Healthier skin
- ⇒ Softer, healthier hair

Benefits of Carbon Filtration

Great Tasting, Healthy Water

Drinking lots of water should be at the core of your health routine. Ingesting lots of chlorine and harmful contaminants should not!

Protect Skin & Hair

Exposure to harsh chlorine and chemicals can damage your skin causing excessive dryness.

Protect Plumbing & Appliances

Chlorine quickly destroys rubber seals & gaskets causing costly leaks. Chloramines are corrosive and can cause pin hole leaks in pipes.

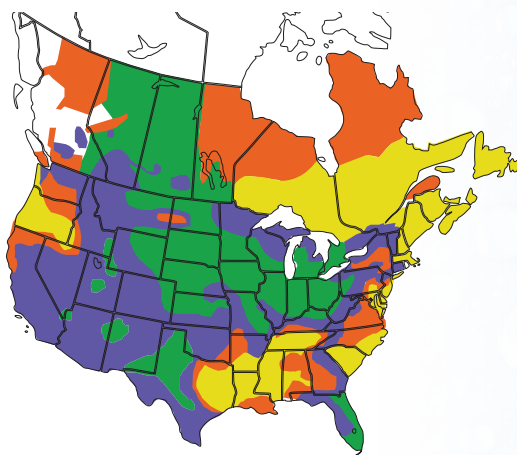

Breath Easy

Clean, healthy air... free from chlorine and volatile organic chemicals (VOC's). Steam from showers can contaminate the air you breath.

* Water Quality Research Foundation Studies
(2010 Detergent savings study, 2009 Energy Savings Study)

- Yellow <3 gpg Slightly Hard
- Orange 3 - 7.5 gpg Moderately Hard
- Purple 7.5 - 14 gpg Hard
- Green > 14 gpg Very Hard

Hard water is caused by dissolved minerals calcium and magnesium and is measured as grains per gallon (gpg).
